RE: IDESIGNSTUFF REFERENCE (THARINA HUMAN)

Dear Tharina

I'd like to take this opportunity to thank you for all your hard work and excellent creative input you have so willingly provided us over the last year.

On every project – be it identity design or a brochure – your conceptual talent has made an enormous impact on not only our clients, but has made my job as a client service person that much easier. It is always such a pleasure to be able to sell a concept, rather than mere creative executions. Your thoroughness from thinking, through conceptualisation to final design is of the highest standard in the industry.

You treated every job briefed to you professionally, respectfully and with integrity. Not only did you deliver all work on time, you almost always over delivered with your strategic thinking.

I wish you every success in the future and can't wait until we embark on the next project together!

Thanks again – it is enormously appreciated!
